

## ENVIRONMENTAL POLICY

NGS is committed to inspire and preserve  
our environment by:

Preserving natural resources through efficient conservation.

Promoting plantation with in the premises.

Creating environmental awareness at all levels for employees  
and students, parents and visitors.

Implementing appropriate systems to minimize pollution.

Complying with and exceeding applicable environmental  
regulations.

Ensuring continual review and improvement of our  
environmental performance.

Complying with all relevant environmental legislation  
and standards.

Implementing strategies to maximize the efficient use of  
natural resources, including energy and water, and of other  
materials, supplies and equipment.

Implementing a programme for waste prevention, reduction,  
collection and segregation. We reuse, recycle, store and  
dispose all wastes arising from the building including litter  
by using safe methods

“A clean and healthy environment is important  
for us and for the generations to come
